# ABOUT US

At **ASTALON ECO** we accompany the path of innovation which is followed by decades of proven performance by keeping our customer first and working on Engineering ideas to provide best solutions, making lives better.

We are leaders in Engineering and Innovative services, offering reliable, efficient and exclusive solutions to customer. We have established longer and closer working relationships with our clients & manufacturers providing immediate & reliable services and continually exceed expectations as well as desired / planned goals. We create commercial flows, import and export products, arranging and managing international projects with our partners.

**Our Genetic Code** is to be Eco-friendly, innovative, sustainable and distinctive. We're minds and makers with business sense and creative chops set out to connect people, with what matters most – THE EXPERIENCE.

**In Pursuit Of** staying true to our core beliefs and deliver an exceptional experience for our community and customers.

**Our Solemn Pledge** to ensure satisfaction of customers, actively nurturing our vision through the delivery of sustainable services at a phenomenal level of reliability, efficiency and safety.

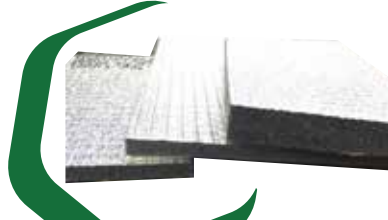

At **ASTALON ECO**, we always believe in giving back to the community and help those in need and contribute to the common good. Social responsibility is our priority and we make sure we pursue it far and wide, no matter when.

# Engineering the best Solutions

**ASTALON ECO** is a leader in Engineering and Innovative services, offering reliable, efficient and exclusive solutions to customer. We have established longer and closer working relationships with Manufacturing Partners providing immediate & reliable services and continually exceed expectations as well as desired / planned goals.

## Astalon ECO Procurement Connect

Manage your surplus site materials with a single click from anywhere, anytime. We CONNECT multiple projects which would benefit from our vast projects portfolio of MEP contractors. This would benefit exclusively to the organizations having excess or unused or reusable materials in their projects to share and evaluate their materials data/details with prospective buyers. We are here to assist you and be a part of your team when the situation gets tough at the site. We believe Nothing Is Scrap! Nothing Should Be Scrapped!. MEP purchase made easier, be a part of **PROCUREMENT CONNECT!!**

Manage your  
surplus site materials..
